

Weekly Market Activity Report

A RESEARCH TOOL FROM MINNEAPOLIS AREA REALTORS®

For Week Ending July 24, 2021

Publish Date: August 2, 2021 • All comparisons are to 2020

Sales of new construction single-family homes fell to a 14-month low, dropping 6.6% in June compared to May, according to the Commerce Department, although sales of new homes remain 13.5% higher compared to a year ago. The recent decline in sales can be attributed to rising construction costs and building material prices, with these increases then passed on to consumers, and to labor and supply chain challenges, which have extended homebuilding timelines, frustrating buyers and further aggravating America's housing shortage.
